Breckenridge, CO – Nov 16, 2023

The Grand Colorado on Peak 8 resort in Breckenridge wins the *Good Housekeeping* Family Travel Award for “Action-Packed Mountain Resort.”

Good Housekeeping (GH), the iconic publication first printed in 1885, known as a source of expert advice for families, has named the Grand Colorado on Peak 8 in Breckenridge as one of the top “Action Packed Mountain Resorts” of 2024.

GH spent the last eight months sending their experts to test everything travel-related from luggage, to travel tech, to resorts and more to rate and deliver their readership the list of the best of the best.

The GH Tester at the Grand Colorado on Peak 8 said, "The vibe is very laid-back. We mainly saw families with kids of every age, from babies to teens." Some additional items of note for the Tester are the resort’s attention to sustainability and that the resort was "extremely clean and well-kept."

Additional key components of the Tester’s experience were the proximity of the resort to the ski lifts, and the fact that even the smallest condo is larger than most hotel rooms. Especially convenient for big families or extended family gatherings is the fact that the 4-bedroom residences house 16 – with huge a living room and large dining room table.

We are thrilled to receive this recognition,” said Jason Bretz, General Manager of the Grand Colorado on Peak 8. Good Housekeeping is a household name, and while we believe our resort is the best in Breckenridge, it’s nice to have such a storied institution feature us. We are excited to share this information with our employees, guests and owners.”

For families with kids, the multiple aquatics areas, private family-sized theaters, escape room and the arcade provide activities to keep everyone entertained.

The fourth resort of the award-winning Breckenridge Grand Vacations, the Grand Colorado on Peak 8 offers nightly rentals and fractional ownership opportunities. The resort was awarded the “ACE Project of Excellence Award” by the American Resort Development Association in 2020.
